

Features and Benefits

- Powerful electric induction motor with overload protection.
- Hi-flow compressor pump capacity delivers more air.
- Direct-drive motor coupling eliminates V-belt maintenance.
- 10 bar (145 psi) maximum outlet pressure to operate nail guns.
- Monobloc die-cast compressor pump with cast iron cylinder(s).
- Oil-lubricated operation for superior efficiency and durability.
- Adjustable regulator varies air pressure output to suit the task.
- Large air receiver for steady pressure with less on and off cycling.
- Lightweight and compact design for ease of portability.
- Ideal for home DIY, farm and building site applications.
- Standard 240 Volt plug and Nitto-style one-touch air coupling.
- 12-month warranty (conditions apply).

Specifications

Model	Pump Displacement	Free Air Delivery	Maximum Pressure	Pump	Motor Power	Power Supply	Tank Volume	Dimensions (cm) & Weight			
	L/min [cfm] *	L/min [cfm] *	kPa [psi]	Model	kW [hp]	Amps	Litres	L	W	H	kg
190-24L	190 [6.7]	105 [3.7]	1,000 [145]	1-Cyl	1.5 [2.0]	10	24	56	36	61	27
